NGINX

REST Api

Linux

SQL

MongoDB

AWS

## PERSONAL PROJECTS

### Neghlbough (04/2020 - 06/2020)

- In the pandemic, to help our community, we wanted to create a platform to track people who are infected with coronavirus and also to advise people on the possibility to leave their home or not. The platform is linked to a strap in the infected wrist that are shown in real time on a map.

### Krib Solidaire (03/2020 - 04/2020)

- It is a mobile app that allows people who are housebound due to coronavirus to order important supplies. The app is linked to an administrative dashboard where volunteers receive the orders and deliver them to the homes.

### Whiteboard (03/2021 - 04/2021)

- A whiteboard as a web application where I can add various shapes or text or even a voice recording and share the board as a JSON file.

## ORGANIZATIONS

### Junior enterprise INSAT (09/2020 - Present)

Project manager on the team who will create the official website of our university, and a web instructor.

### Tunirobots (09/2019 - 06/2020)

Graphic design team manager.

### Aeroday (09/2018 - 05/2019)

AV team manager
